AUDITORS' REPORT

Balance in treasury		\$2,863 53
Total assets		\$2,863 53
Due school district dog tax	\$168 95	
Total liabilities		\$168 95
		<hr/>
Credit to town		\$2,694 58

Four hundred fifty dollars of the amount remaining in treasury was raised and appropriated to resurface the Yeaton road.

We hereby certify that we have examined the accounts of the Selectmen, Clerk and Treasurer of the Town of Epsom and found them correctly cast and supported by proper vouchers.

SAMUEL R. YEATON,
JAMES L. BICKFORD,

Auditors.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

For the Year Ending June 30th, 1921

To the School Board and Citizens:

I herewith submit my second annual report of the schools of Epsom.

There were maintained during the year, five schools. Four for a school year of 36 weeks; one, the New Rye school, for a school year of 34 weeks. Owing to an epidemic of scarlet fever this school was closed. Permission was granted by the Commissioner of Education for a school year of 34 weeks for this school.

It is the intent of the school law, and we believe the desire of all intelligent citizens, that every school in New Hampshire shall be a good school and that opportunities for a good education shall be granted equally to each pupil as far as conditions will permit.

That pupils in rural communities may have school advantages approximating those given to city children the following conditions should be met and requirements filled.

- 1 A sanitary school house and buildings with pleasant and healthful surroundings.

- 2 A pupil enrollment of 15. In case of great difficulties and cost of transportation a school of 12 pupils may be more economically maintained.

- 3 An approved, efficient teacher, well paid and happy in her work, working under the direction of an approved and industrious superintendent, with an approved program of study and a daily time-table intelligently arranged and wisely carried into effect.

4 A pleasant home for the teacher where she may enjoy suitable comforts and have conveniences for doing her school work. This means at least a pleasant, well heated, ventilated and lighted room.

5 Parents and citizens interested in good schools and their improvement and willing to co-operate in making good schools. One great duty every parent owes to the school and to his children for their future welfare and happiness, is to see that the children are punctual at school and that their attendance is regular.

6 The transportation of pupils in safe and comfortable vehicles with a thoroughly competent driver. The law of 1921 for the transportation of pupils is as follows:

"The district shall furnish transportation to all pupils below the ninth grade who live more than two miles from the school to which they are assigned, but when it shall appear that children live in homes so remote from schools or regular school transportation routes that the cost of transportation would constitute an unreasonable expense the school board may, at the expense of the district, board the child near a public school, provided, however, that the parent or guardian may appeal to the commissioner with proposals for transportation by himself or by another, or with other solutions, and the order of the commissioner shall be final.

Pupils who are to be transported may be required to walk any reasonable part, not exceeding one mile, of the distance from their homes to the school. The school board may furnish transportation to pupils in grades above the eighth or to any pupils residing less than two miles from the school to which they are assigned when it finds that this is desirable, and shall

furnish it when directed by the commissioner of education."

No state aided district receives any state money for transportation of pupils living less than two miles from the school, unless such transportation is directed by the Commissioner of Education.

HEALTH AND PHYSICAL WELFARE

A thorough examination of the pupils was made during the fall term by Health Inspector Dr. Roscoe Hill.

That the work of the medical inspector may be fully effective, there should be the follow-up service conducted by a school nurse. Her frequent room-to-room and house-to-house visitation gives her opportunities for observing the hygienic and sanitary conditions as to ventilation, temperature, cleanliness, clothing and diet. Her service is of special value to the tuberculous, crippled and anaemic children. Her hospital and professional training makes her advice valuable to parents, teachers and doctors. Her duties are similar to those of a hospital nurse, to make records of body temperature, etc., to supervise the diet and health habits and advise continually with parents.

The school nurse is a true social worker. Her kind ministrations and educative influence in the home are her most valuable services.

The pioneer nurse must be trained to understand every class and condition of people, must be patient, sympathetic and tactful. She must be confident of her knowledge, forceful, and convincing in her directions to bring about better health conditions.

Innovations in school work are usually met with opposition, especially by those who have not carefully considered their merits. Thus far in the United

States school nurses have not been generally employed in rural communities. This is not to be attributed to a lack of need, but to obstacles incident to a scattered population. As our rural districts receive better educational advantages through well trained teachers and larger schools, the nurse will be more generally considered a necessary factor in the school equipment.

From statistics we learn that about one hundred and fifty thousand of the inhabitants of the United States die each year of tuberculosis. It is estimated that this disease alone cost our nation one billion dollars a year, an annual sum that, if properly expended, would free the land from the disease.

"It is within the power of man to cause all parasitic diseases to disappear from the world."—Pasteur.

WORK DONE IN SCHOOL

The State Program of Study for Rural Schools was well taught and most of the teachers worked from a well planned daily timetable. There is a tendency on the part of some teachers to combine pupils in one class when not of equal attainment and ability, also to promote pupils when not thoroughly prepared. To promote a pupil when not prepared is leading him into darkness, not into light.

The teachers have been earnest in their efforts to teach thrift, by seeing that supplies were economically used and books properly cared for. Special emphasis should be placed by all upon the need of sanitary buildings, good school equipment, the proper care of public property, and the knowledge of the laws of health and the practice of poor health habits.

ATTENDANCE

The attendance of pupils in most schools was good. Most of the absences occurred from sickness or

other good reasons. Cases of truancy were confined to a very few families.

I again call the attention of the parents to the importance of the punctual and regular attendance of their children at school. It is a duty they owe to the child, the school, the state, and the tax-paying community.

RECOMMENDATIONS

I recommend that the buildings be put in proper repair. The roofs of some need covering and the chimneys cleaned out and capped. The walls and ceilings, soiled by water, smoke and creosote, need refinishing.

That the stoves be enclosed. This will add comfort for the pupils and saving in fuel costs.

In conclusion, I express my appreciation for your hearty co-operation and assistance.

Respectfully submitted,

HENRY S. ROBERTS.

ROLL OF PERFECT ATTENDANCE

Including the names of all pupils who have been present every half-day without being tardy:

Clifton J. Fife, Winthrop H. Fife, Lionell Lear, George P. Little, Dean Ordway, Esther R. Yeaton, Ellen Zinn, Walter Zinn.

REPORT OF PUBLIC LIBRARY

The Public Library Trustees herewith present their report for the year 1921, including the financial report and a list of the books added to the Public Library since the printing of the last town report.

The people of Epsom have a good public library and a good collection of books, and the trustees are pleased to notice that the library is being freely used—more than a hundred books having been taken out on one of the January afternoons when the library was open this year. We hope this interest will be kept up.

Aside from public documents and pamphlets 143 books have been added to the library by purchase and gifts during the past year.

The trustees gratefully acknowledge the receipt of 10 valuable volumes from Dr. Roscoe Hill, for a long time a trustee of this library.

The trustees thank Mrs. Luella J. Lawrence for the gift of a biographical book; Miss Sarah A. Gillan for the gift of a book of fiction, and Mrs. Southwick for the gifts of magazines and books.

Respectfully submitted,

JOHN W. GRIFFIN,
WARREN TRIPP,
CHARLES S. HALL,

Trustees.
